

A photograph of a yellow-eyed penguin standing in a grassy field. The penguin has a white head and neck with a prominent yellow stripe above its eye. Its body is primarily grey with a white underbelly and a black wing. It has a long, orange beak and is looking towards the left. The background is a soft-focus field of tall grass.

In total, up to \$9,000 NZD is available over a three year period, which may be split amongst several applications.

How to apply

Applications are due by 5pm on Friday 19 March 2021.
